

A better way.

In order to provide our clients with a full month of showing reports we must pull 2 “sets” of reports (2 weeks at a time), merge them together and then post them. It is necessary to use “ctrl f” to find your property because it may be at the bottom of the next “set” of information.

Also, if you are not seeing the report that was pulled this week (updated every Wednesday before 5pm) please clear your cache and try again.

Thank you for your business!
